# A truly "quiet breed" of reliable power

12.5/10.3 EGTD Diesel Generator

#### Powerful & Reliable

Powered by a lightweight, rugged "industrial engine," the 12.5 EGTD continues to support the strong record of reliability Westerbeke has built supplying product to the United States Navy and Coast Guard as well as commercial vessels and pleasure craft world-wide. The 12.5 EGTD's robust 1.76 liter engine provides additional capacity to manage motor loads that may "bog down" similar generator sets limited by engine power.

# Smooth, Quiet Operation

The 12.5 EGTD provides 4-cylinder smoothness and a tuned air intake silencer for quiet, slow speed operation. In addition, standard electronic governing maintains the engine at a constant speed virtually eliminating "droop" when load is applied.

## **Longer Life and Easier Maintenance**

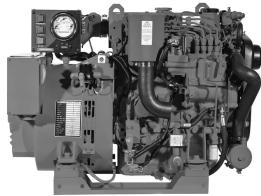

The engine operates at a low 1800-rpm and is fresh water cooled, via heat exchanger, for longevity. The generator windings are NEMA class "H" insulated and double vacuum epoxy impregnated to increase protection against the harsh marine environment. Easy access servicing points and individually removable top and side panels of the optional sound enclosure contribute to easier maintenance.

#### **Full Torque, Power Take-Off Interface**

A customer sourced, electric clutch and hydraulic pump can be mounted to the full torque, power takeoff interface for use with such items as bow or stern thrusters, compressors, winches and emergency "get home" systems.

# **Five Year Limited Warranty**

This generator set is backed by Westerbeke's 5-year limited warranty. The presence of Westerbeke in over 65 countries around the world provides customers with easy access to parts, service and technical support word-wide. Established in 1937, Westerbeke is committed to providing its customers with quality products and unequaled after sales support.

12.5/10.3 EGTD Diesel Generator

#### Standard Features

- Instrument panel with safety stop switch
- Remote start/stop plug-in connection
- Electronic governing
- Safety shut-downs: overspeed, underspeed, low battery voltage and low oil pressure, high exhaust and high coolant temperature
- A.C. circuit breaker (single phase)
- 50 amp battery charging alternator
- Power take-off interface
- Self-bleeding fuel system
- Fresh water cooling and coolant recovery tank
- 45 degree water injected exhaust elbow
- Gear driven raw water pump
- Tuned air intake silencer
- Anti-vibration mounts fail safe rubber type
- Lube oil drain hose and drip tray
- Oil fill top and side
- Belt quard
- Operators' manual and parts list
- 5 year limited warranty
- Meets CARB & U.S. EPA regulations

### Instrument Panel

#### **Generator Design**

**DESIGN:** Brushless, four pole, revolving, power takeoff. **VOLTAGE REGULATION:** Standard +/- 5% no load to full load.

FREQUENCY REGULATION: .5 Hz (.6%) no load to full load. INSULATION: Class "H" as defined by NEMA MG1-1.65.

**TEMPERATURE RISE:** Within NEMA MG1-22.40 definition when operating at full load.

**COOLING:** Cast centrifugal blower, direct connected.

**ELECTROMAGNETIC INTERFERENCE LEVEL:** Exceeds requirements for most marine radio-telephones and standard TVs.

|               | Electrical Characteristics |          |       |       |      | Ratings      |      | Engine |        |
|---------------|----------------------------|----------|-------|-------|------|--------------|------|--------|--------|
| Model         | Volts                      | Amps     | Hertz | Phase | Wire | Power Factor | KW   | RPM    | Start  |
| 12.5 EGTD-614 | 120/240                    | 104/52.0 | 60    | 1     | 4    | 1.0          | 12.5 | 1800   | Remote |
| 10.3 EGTD-514 | 230                        | 44.7     | 50    | 1     | 4    | 1.0          | 10.3 | 1500   | Remote |

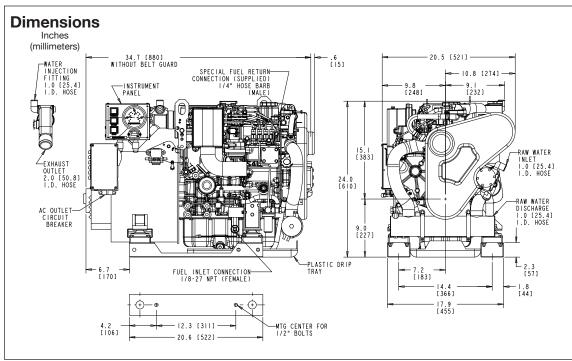

Three phase units are available at these ratings.

| Specifications                |  |  |  |  |
|-------------------------------|--|--|--|--|
| Number of cylinders           | 4 Cylinder vertical in-line                            |  |  |  |
