

The “low profile” 7.6 KW is back!

7.6/5.7 EGTD Diesel Generator

7.6/5.7 EGTD Diesel Generator

A Quiet, Compact “Mini 8”

A favorite among OEMs and boat owners where there is limited space for a full 8kW, the 7.6kW is a popular low speed, “quiet” alternative. The 3-cylinder, 7.6 EGTD incorporates a tuned air intake silencer and four point vibration mounts for smooth, quiet operation. A unique AC generator with short, “pancake” design and an engine with smartly fit components result in a highly compact generator set for the most demanding installations. The 7.6 EGTD is only 20.5 inches high, 28.4 inches long and features one-side serviceability, making it a perfect solution for tight quarters.

Lightweight and Reliable

Powered by a lightweight rugged “industrial” engine, the 7.6 EGTD continues to support the strong record of reliability Westerbeke has built supplying product to the United States Navy and Coast Guard as well as commercial vessels and pleasure craft world-wide.

Longer Life and Easier Maintenance

The engine operates at a low 1800-rpm and is fresh water cooled, via heat exchanger, for longevity. The generator windings are NEMA class “H” insulated and double vacuum epoxy impregnated to increase protection against the harsh marine environment. Easy access to most servicing points and individually removable top and side panels of the optional sound enclosure contribute to easier maintenance.

Full Torque, Power Take-Off Interface

A customer sourced, electric clutch and hydraulic pump can be mounted to the full torque, power take-off interface for use with such items as bow or stern thrusters, compressors, winches and emergency “get home” systems.

Five Year Limited Warranty

This generator set is backed by Westerbeke’s 5-year limited warranty. The presence of Westerbeke in over 65 countries around the world provides customers with easy access to parts, service and technical support word-wide. Established in 1937, Westerbeke is committed to providing its customers with quality products and unequalled after sales support.
