

PARTS DEPARTMENT BULLETIN

DATE: 10-Apr-15

BULLETIN NUMBER: 2015-4

SUBJECT: Using Parts List # 37984 for 4.5 / 3.4 BCGA Gasoline Generators

MODELS 4.5 BCG-614 and 3.4 BCG-514, 4.5 BCGA-614 and 3.4 BCGA-514, 7.0 BCG-614 and 5.0
AFFECTED: BCG-514, 7.0 BCGA-614

DETAIL: There is no parts list specific to the 4.5 BCGA and 3.4 BCGA. All parts found in parts list 37984, other than base engine related ones, are the same as the non "A" suffix version.

The base engine for an "A" version 4.5 or 3.4 is the same as a 7.0 BCG and 5.0 BCG. It is important to keep this in mind when choosing parts for rebuilding or repairing a 4.5 BCGA or 3.4 BCGA. The engine used on a 7.0 BCGA remains the same as a 7.0 BCG and 5.0 BCG.

The serial number breaks found in parts list 37984 are often found confusing as well, please note the following information pertaining to the base engine manufacturer's production date.

- Numbers with no letter prefixes before the prefix "92" are earlier production.
- "0S" prefix is the base engine manufacturer's production date code for 1990.
- "1S" prefix represents the base engine was manufactured in 1991.
- Units built after 1991 have the prefix "92" for 1992, "93" for 1993 and so forth.
